

SUPPLEMENT
Guinness Best of Asia Fund
Dated 12th January, 2018

This Supplement contains information relating specifically to the Guinness Best of Asia Fund (the “Fund”), a Fund of Guinness Asset Management Funds plc (the “Company”), an open-ended umbrella fund with segregated liability between Funds authorised by the Central Bank on 19th December, 2007 as a UCITS pursuant to the UCITS Regulations.

As at the date of this Supplement the Company has 17 Funds, the Guinness Alternative Energy Fund, the Guinness Global Energy Fund, the Guinness Best of China Fund, the Guinness Best of Britain Fund, the Guinness Global Equity Income Fund, the Guinness Global Money Managers Fund, the Guinness Asian Equity Income Fund, the Guinness European Equity Income Fund, the Guinness Global Innovators Fund, the Guinness European Equity Fund, the Guinness Alternative Energy Income Fund, the Guinness Global Energy Income Fund, the Guinness Renminbi Yuan & Bond Fund, the Guinness Emerging Markets Equity Income Fund, the Guinness Global Equity Fund, the Guinness US Equity Fund and the Guinness Best of Asia Fund.

This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus for the Company dated 12th January, 2018 (the “Prospectus”).

The Directors of the Company whose names appear in the Prospectus under the heading “Management and Administration” accept responsibility for the information contained in this Supplement and the Prospectus. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement and in the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. Investors should read and consider the section of the Prospectus entitled “Risk Factors” before investing in the Fund.

The Fund may invest substantially in deposits and/or in money market instruments. An investment in the Fund is neither insured nor guaranteed by any government, government agencies or instrumentalities or any bank guarantee fund. Shares of the Fund are not deposits or obligations of, or guaranteed or endorsed by, any bank and the amount invested in Shares may fluctuate up and/or down.

Profile of a Typical Investor: Investment in the Fund is suitable only for those persons and institutions for whom such investment does not represent a complete investment program, who understand the degree of risk involved (as detailed under the section of the Prospectus and Supplement headed “Risk Factors”), can tolerate a medium level of volatility and believe that the investment is suitable based upon investment objective and finance needs. Investment in the Fund should be viewed as medium to long term.

1. Interpretation

The expressions below shall have the following meanings:

“Business Day”	means any day (except Saturday or Sunday) on which banks in Dublin are generally open for business or such other day or days as may be determined by the Directors and notified to Shareholders.
“Dealing Day”	means each Business Day or such other day or days as may be determined by the Directors and notified to Shareholders in advance provided that there shall be at least one Dealing Day every fortnight.
“Dealing Deadline”	means 3.00 p.m. Irish time on each Dealing Day or such other time as the Directors may determine and notify in advance to Shareholders provided always that the Dealing Deadline is no later than the Valuation Point.
“Initial Price”	means GBP£/Euro/US Dollar 10.00 (relevant to the currency of denomination of the relevant Class Share) per Class Share.
“Valuation Point”	means 11.00 p.m. (Irish time) on each Dealing Day.

All other defined terms used in this Supplement shall have the same meaning as in the Prospectus.

2. Base Currency

The Base Currency shall be US\$.

3. Classes and Currency

The Company has established the following Classes denominated in the following currencies:

Class	Currency
Class C GBP Accumulation	GBP£
Class Y GBP Accumulation	GBP£
Class Y EUR Accumulation	Euro
Class Y USD Accumulation	US Dollar
Class Z GBP Accumulation	GBP£

4. Investment Objective

The investment objective of the Fund is to provide investors with long-term capital appreciation.

5. Investment Policy

In seeking to achieve its investment objective the Fund intends to primarily invest in equity and equity related securities of companies that are either primarily traded on market exchanges in the Asia Pacific Region including Japan (the “Region”) or that derive at least 50% of their revenues from business activities in that Region, but which may be listed and traded on other Recognised Exchanges.

These equity and equity related securities include common stocks, preferred stocks, securities convertible into common stocks, rights and warrants, which are generally listed or traded on a Recognised Exchange. No more than 5% of the Net Asset Value of the Fund will be invested in warrants.

Under normal market conditions the Fund intends to invest in between 25 and 75 stocks. The Investment Manager may invest the Fund's assets in securities of companies with a wide range of market capitalizations and in companies domiciled throughout the world, including companies domiciled in or traded on markets in the Region.

The Fund may invest in China A shares listed on the Shanghai Stock Exchange via the Shanghai Hong Kong Stock Connect scheme, or the Shenzhen Stock Exchange via the Shenzhen Hong Kong Stock Connect scheme (as further described in the sub-section headed “Stock Connect Scheme” below).

When current market, economic, political or other conditions are unstable and would impair the pursuit of the Fund's investment objective, the Fund may temporarily invest up to 100% of its assets in cash, cash investments such as bank deposits or high quality investment grade short-term money market instruments including, but not limited to, commercial paper and treasury bills. When the Fund takes a temporary defensive position, the Fund may not achieve its investment objective. The philosophy of the Fund is to remain invested.

The financial derivative instruments which the Fund may utilise include futures, options and forward foreign exchange contracts (details of which are set out in the section of the Prospectus headed “Financial Derivative Instruments and Techniques for Efficient Portfolio Management”) for efficient portfolio management purposes, hedging purposes, to reduce portfolio risk or to obtain in a more efficient way exposure that would otherwise be obtained by direct investment in securities in accordance with the investment objective and policies above, and as further detailed below. The leveraged exposure of the Fund through the use of derivatives will not exceed 100% of the Net Asset Value of the Fund, as measured using the commitment approach in accordance with the UCITS Regulations. It is expected that the use of financial derivative instruments for efficient portfolio management purposes, hedging

purposes and to indirectly gain exposure to underlying equity and/or equity related securities where the Investment Manager feels it is more efficient to do so, will actively reduce the risk profile of the Fund.

Futures and options may be used to hedge against downward movements in the value of the Fund's portfolio, either by reference to specific securities (i.e. equity or equity related securities) or markets to which the Fund may be exposed. These derivative instruments may also be used to reduce the Fund's direct exposure to equity or equity related securities or markets on a short or medium term basis where it is more efficient to use derivatives for this purpose, or to gain indirect exposure to equity or equity related securities where the Investment Manager feels that such use of financial derivative instruments is in the best interests of the Fund.

Forward foreign exchange contracts will only be used for hedging purposes or to alter the currency exposure of the underlying assets in accordance with the limits set out by the Central Bank. The Fund will not be leveraged as a result of engaging in forward foreign exchange contracts.

The Fund may enter into stocklending and repurchase/reverse repurchase agreements for efficient portfolio management purposes only, subject to the conditions and limits set out in the Central Bank UCITS Regulations. The maximum exposure of the Fund in respect of stocklending and repurchase/reverse repurchase agreements shall be 30% of the Net Asset Value of the Fund. However, the Investment Manager does not anticipate that the Fund's exposure to stocklending and repurchase/reverse repurchase agreements will exceed 0%-20% of the Net Asset Value of the Fund. The types of assets that will be subject to stocklending and repurchase/reverse repurchase agreements will be equity and equity related securities.

Investment Strategy

Investments are selected using a combination of analysis of economic and market factors, screening the investible universe for key identifiers of quality, value, earnings trend and price momentum, and detailed analysis of the underlying business. The core element is quality, defined as a sustainable return on capital that is above the cost of capital. Where a company has generated this return and continues to reinvest capital at a rate of return that remains above the cost of capital then the company's asset base and profits should grow. The Investment Manager believes such businesses have favourable prospects for long-term growth and seeks stocks that have already achieved, or look likely to achieve this profitable profile but whose share price undervalues growth in profitability.

6. Stock Connect Scheme

The Fund may invest in China A shares through the Shanghai Hong Kong Stock Connect scheme, or the Shenzhen Hong Kong Stock Connect scheme (the "Stock Connect Scheme").

The Shanghai Hong Kong Stock Connect is a securities trading and clearing linked program developed by Hong Kong Exchanges and Clearing Limited (“HKEx”), the Shanghai Stock Exchange (“SSE”) and China Securities Depository and Clearing Corporation Limited (“ChinaClear”). The Shenzhen Hong Kong Stock Connect is a securities trading and clearing links program developed by HKEx, Shenzhen Stock Exchange (“SZSE”) and ChinaClear.

The aim of the Stock Connect is to achieve mutual stock market access between Mainland China and Hong Kong. The stock exchanges of the two jurisdictions continue to issue details of Stock Connect, e.g. operational rules, from time to time. The Stock Connect enables investors to trade eligible shares listed on the other’s market through local securities firms or brokers.

The Stock Connect comprises Northbound Trading Links and Southbound Trading Links. Under the Northbound Trading Links, investors, through their Hong Kong brokers and a securities trading service company to be established by the Stock Exchange of Hong Kong Limited (“SEHK”), are able to place orders to trade eligible China A shares listed on the relevant PRC Stock Exchange (“Stock Connect Securities”) by routing orders to such PRC stock exchange. All Hong Kong and overseas investors (including the Fund) are allowed to trade Stock Connect Securities through the Stock Connect (through the relevant Northbound Trading Link).

Further information about the Stock Connect Scheme is available online at the website:
<http://www.hkex.com.hk/eng/csm/chinaConnect.asp?LangCode=en>

Specific risks are outlined below in the section headed “Risks associated with the Stock Connect Scheme”

7. Offer

Shares will be offered from 9.00am (Irish Time) on 28th November 2017 to 3.00pm (Irish Time) on 28th December 2017 (the “initial offer period”) at the Initial Price and subject to acceptance of applications for Shares by the Company will be issued for the first time on the first Dealing Day after expiry of the initial offer period. The initial offer period may be shortened or extended by the Directors. The Central Bank will be notified in advance of any such shortening or extension if subscriptions for Shares have been received and otherwise on an annual basis.

After closing of the initial offer period Shares in the Fund will be issued at the Net Asset Value per relevant Share.

8. Minimum Subscription

The Minimum Subscription limits are as follows:

*Minimum Subscription (*Initial Subscription)*

Class	Minimum Subscription
Class C GBP Accumulation	£1,000
Class Y GBP Accumulation	£1,000
Class Y EUR Accumulation	€1,000
Class Y USD Accumulation	\$1,000
Class Z GBP Accumulation	£100,000,000

The Directors reserve the right to differentiate between Shareholders and to waive or reduce the Minimum Subscription for certain investors provided that Shareholders in the same/comparable position in the same Share Class shall be treated equally and fairly.

9. Application for Shares

Applications for Shares may be made through the Administrator (whose details are set out in the Application Form). Applications accepted and received by the Administrator prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any applications received after the Dealing Deadline for a particular Dealing Day will be processed on the following Dealing Day unless the Directors in their absolute discretion otherwise determine to accept one or more applications received after the Dealing Deadline for processing on that Dealing Day provided that such application(s) have been received prior to the Valuation Point for the particular Dealing Day. Applications received after the Dealing Deadline but prior to the Valuation Point will only be accepted in exceptional circumstances as determined and agreed by the Directors, and having regard to the equitable treatment of Shareholders.

Initial applications should be made using an Application Form obtained from the Administrator but may, if the Company so determines, be made by telefax subject to prompt transmission to the Administrator of the original signed application form and such other papers (such as documentation relating to money laundering prevention checks) as may be required by the Directors or their delegate. No redemptions will be processed until the original Application Form and such other papers as may be required by the Directors have been received and all anti-money laundering procedures have been completed. Subsequent applications to purchase Shares following the initial subscription may be made to the Administrator by telefax or such other means as may be permitted by the Directors without a requirement to submit original documentation and such applications should contain such information as may be specified from time to time by the Directors or their delegate. Amendments to a Shareholder's registration details and payment instructions will only be made following receipt of original written instructions from the relevant Shareholder.

Fractions

Subscription monies representing less than the subscription price for a Share will not be returned to the investor. Fractions of Shares will be issued where any part of the subscription monies for Shares represents less than the subscription price for one Share, provided however, that fractions shall not be less than .01 of a Share.

Subscription monies, representing less than .01 of a Share will not be returned to the investor but will be retained by the Company in order to defray administration costs.

Method of Payment

Subscription payments net of all bank charges should be paid by CHAPS, SWIFT or telegraphic or electronic transfer to the bank account specified in the Application Form enclosed with this Prospectus. Other methods of payment are subject to the prior approval of the Company. No interest will be paid in respect of payments received in circumstances where the application is held over until a subsequent Dealing Day.

Currency of Payment

Subscription monies are payable in the currency of denomination of the relevant Share Class. However, subscriptions may be made in any freely convertible currency accepted by the Administrator but will be converted into the currency of denomination of the relevant Share Class at the rate of exchange available to the Administrator. The cost of conversion shall be deducted from the monies subscribed by an investor and the amount remaining will then be invested in Shares. The attention of investors is drawn to the fact that the value of Shares subscribed for in a currency other than the currency of denomination of the relevant Share Class will be subject to exchange rate risk in relation to the relevant currency of denomination.

Timing of Payment

Payment in respect of subscriptions must be received in cleared funds by the Administrator no later than 3 Business Days after the relevant Dealing Day provided that the Company reserves the right to defer the issue of Shares until receipt of cleared subscription monies by the Fund. If payment in cleared funds in respect of a subscription has not been received by the relevant time, the Manager or its delegate may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the investor interest at the 7 day London Interbank Offer Rate as fixed by the British Banking Association (LIBOR) + 1.5% for the relevant subscribed currency, which will be paid to the Manager together with an administration fee of Stg£100, or its relevant subscribed currency equivalent. The Company may waive either of such charges in whole or in part. In addition, the Manager has the right to sell all or part of the investor's holding of Shares in the Fund or any other Fund of the Company in order to meet such charges.

Confirmation of Ownership

Confirmation of each purchase of Shares will be sent to Shareholders within 48 hours of the purchase being made. Confirmation will normally be dispatched by email or facsimile where the relevant and proper contact details have been provided to the Administrator, or alternatively by post at the discretion of the Administrator. Title to Shares will be evidenced by the entering of the investor's name on the Company's register of Shareholders and no certificates will be issued.

10. Redemption of Shares

Requests for the redemption of Shares should be made to the Administrator whose details are set out in the Application Form on behalf of the Company by way of a signed application form or facsimile or written communication or such other means as may be permitted by the Directors and should include such information as may be specified from time to time by the Directors or their delegate. Requests for redemption received prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any requests for redemption received after the Dealing Deadline for a Dealing Day will be processed on the next Dealing Day unless the Company in its absolute discretion determines otherwise. Redemption requests received after the Dealing Deadline but prior to the Valuation Point will only be accepted in exceptional circumstances as determined and agreed by the Directors, and having regard to the equitable treatment of Shareholders. Redemption requests will only be accepted for processing where cleared funds and completed documents including documentation relating to money laundering prevention checks are in place from original subscriptions. No redemption payment will be made from an investor holding until the original subscription application form and all documentation required by or on behalf of the Company (including any documents in connection with anti-money laundering procedures) has been received from the investor and the anti-money laundering procedures have been completed.

The redemption price per Share shall be the Net Asset Value per Share. However, the Directors are empowered to charge a redemption fee, details of which are set out at Section **12. Fees and Expenses**, sub-heading "Redemption Fee". In the event of a redemption fee being charged, Shareholders should view their investment as medium to long term.

Method of Payment

Redemption payments following processing of instructions received by telefax will only be made to the bank account detailed on the Application Form or as subsequently notified to the Administrator in writing.

Currency of Payment

Shareholders will normally be repaid in the currency of denomination of the relevant Share Class. If, however, a Shareholder requests to be repaid in any other freely convertible currency, the necessary foreign exchange transaction may be arranged by the Administrator (at its discretion) on behalf of the Shareholder and the cost of conversion shall be deducted from the redemption proceeds payable to the Shareholder.

Timing of Payment

Redemption proceeds in respect of Shares will be paid within 5 Business Days of the Dealing Deadline for the relevant Dealing Day provided that all the required documentation has been furnished to and received by the Administrator.

Withdrawal of Redemption Requests

Requests for redemption may not be withdrawn save with the written consent of the Company or its authorised agent or in the event of suspension of calculation of the Net Asset Value of the Fund.

Compulsory/Total Redemption

Shares of the Fund may be compulsorily redeemed and all the Shares may be redeemed in the circumstances described in the Prospectus under the sub-headings “Compulsory Redemption of Shares” and “Total Redemption of Shares”.

11. Conversion of Shares

Subject to the Minimum Subscription requirements of the relevant Fund or Classes, Shareholders may request conversion of some or all of their Shares in one Fund or Class to Shares in another Fund or Class or another Class in the same Fund in accordance with the procedures specified in the Prospectus under the heading “Conversion of Shares”.

12. Fees and Expenses

The attention of investors is drawn to the section of the Prospectus headed “Fees and Expenses”.

Administration Fee

The Manager will pay to the Investment Manager out of the assets of the Fund a maximum fee as detailed below (plus VAT, if any, thereon), accrued at each Valuation Point and payable monthly in arrears.

- Up to 0.59% of the Net Asset Value of the Fund on the first \$500 million
- Up to 0.35% of the Net Asset Value of the Fund on amounts in excess of \$500 million

The administration fee is payable to the Investment Manager subject to the proviso that, when taken together with the investment management fee payable to the Investment Manager (as detailed below) the combined administration fee and investment management fee shall not exceed 2% of the Net Asset Value of the relevant Class.

The Investment Manager shall be responsible for paying the expenses of the Fund and its service providers as detailed below out of the administration fee it receives, to include establishment costs, fees and expenses payable to the Manager, the Depositary, the Administrator, including transfer agency transaction fees, all fees for investment research (subject to a maximum charge of 0.10% of the Net Asset Value of the Fund), Directors fees, any Paying Agent appointed by or on behalf of the Company, and general administrative expenses, which include but are not limited to legal and other professional advisory fees, company secretarial fees, Companies Registration Office filings and statutory fees, regulatory fees, auditing fees,

translation and accounting expenses, taxes and governmental expenses applicable to the Fund, costs of preparation, translation, printing and distribution of reports and notices, all marketing material and advertisements and periodic update of the Prospectus, stock exchange listing fees, all expenses in connection with registration, listing and distribution of the Fund and Shares issued or to be issued, all expenses in connection with obtaining and maintaining a credit rating for the Fund or Classes or Shares, expenses of Shareholders meetings, Directors' insurance premia, expenses of the publication and distribution of the Net Asset Value, clerical costs of issue or redemption of Shares, postage, telephone, facsimile and telex expenses and any other expenses in each case together with any applicable value added tax.

Investment Manager's Fee

The Manager will pay to the Investment Manager out of the assets of the Fund the fees as detailed below subject to a maximum fee of 2% of the Net Asset Value of the relevant Class, accrued at each Valuation Point and payable monthly in arrears.

The investment management fee is payable to the Investment Manager subject to the proviso that, when taken together with the administration fee payable to the Investment Manager (as detailed above) the combined investment management and administration fee shall not exceed 2% of the Net Asset Value of the relevant Class.

Class	Fee
Class C GBP Accumulation	1.50% of the Net Asset Value of the Class C GBP Accumulation Shares
Class Y GBP Accumulation	0.50% of the Net Asset Value of the Class Y GBP Accumulation Shares
Class Y EUR Accumulation	0.50% of the Net Asset Value of the Class Y EUR Accumulation Shares
Class Y USD Accumulation	0.50% of the Net Asset Value of the Class Y USD Accumulation Shares
Class Z GBP Accumulation	0.25% of the Net Asset Value of the Class Z GBP Accumulation Shares

Global Distributor

The Global Distributor shall be entitled to receive a distribution fee of up to 5% on subscription proceeds in respect of any Class C Shares. This fee may be waived in whole or in part at the discretion of the Global Distributor.

The fees of any sub-distributor appointed by the Global Distributor will be paid out of the portion of the fees payable to it for the distribution of Shares of the Fund.

Redemption Fee

A redemption fee not exceeding 2% of the Net Asset Value of Shares being redeemed within 30 days of subscription may be imposed on the redemption of Shares which shall be retained by

the Company for its sole use and benefit or as it may determine. The Directors may differentiate between Shareholders of the Fund by waiving or reducing the redemption fee chargeable to certain Shareholders.

Shareholders who redeem after the 30 day period will not be charged a redemption fee.

13. Dividends and Distributions

Accumulation Shares

Income attributable to Accumulation Share Classes will not be distributed but will be accumulated within the Fund.

14. Risk Factors

The attention of investors is drawn to the “Risk Factors” section in the Section of the Prospectus entitled “The Company”).

In addition, the following risk factors are specific to an investment in the Fund.

Investment in Equity Securities

The Fund will invest in equity securities traded on Recognised Exchanges. Equity securities will be subject to risks associated with such investments, including fluctuations in market prices, adverse issuer or market information and the fact that equity securities are subordinate in the right of payment to other corporate securities, including debt securities. The value of these securities varies with the performance of the respective issuers and movements in the equity markets generally. As a result, the Fund may suffer losses if it invests in equity securities of issuers where performance falls below market expectations or if equity markets in general decline or the Fund has not hedged against such a general decline.

Concentration Risk

The Fund invests in a specific geographic region and typically holds a relatively small number of stocks as compared to many other funds. Under normal market conditions the Fund intends to invest in between 25 and 75 stocks. This may make the Fund’s performance more volatile than would be the case if it had a diversified investment portfolio.

Market risks in Asia Pacific:

The Fund may invest in equity securities of companies in the markets of the Asia Pacific. Such securities may involve a high degree of risk and may be considered speculative. Risks include (i) greater risk of expropriation, confiscatory taxation, nationalization, and social, political and economic stability; (ii) the small current size of the markets for securities of emerging markets issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility; (iii) certain national policies which may restrict the Fund's investment

opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; (iv) the absence of developed legal structures governing private or foreign investment and private property; (v) the legal infrastructure and accounting, auditing and reporting standards in emerging markets may not provide the same degree of shareholder protection or information to investors as would generally apply internationally; (vi) potentially a greater risk regarding the ownership and custody of securities i.e. in certain countries (to include but not limited to Indonesia, Malaysia and Philippines, ownership is evidenced by entries in the books of a company or its registrar. In such instances, no certificates representing ownership of companies will be held by the Depository or any of its local correspondents or in an effective central depository system; and (vii) emerging markets may experience significant adverse economic developments, including substantial depreciation in currency exchange rates or unstable currency fluctuations, increased interest rates, or reduced economic growth rates than investments in securities of issuers based in developed countries.

Special Risks Associated with investment in Asia Pacific

Investing in this Fund may be more risky than investing in a fund that invests in non-Asian markets due to increased volatility of foreign markets. You may lose money by investing in this Fund if any of the following occur:

- The Asian stock markets decline in value;
- Asian stocks fall out of favour with investors;
- The Fund has difficulty selling stocks due to lower liquidity and higher volatility;
- The value of Asian currencies declines relative to the U.S. dollar, the Euro or Pounds Sterling;
- A government expropriates or nationalizes the assets of the Fund or companies in which the Fund invests;
- Political, social, currency-rate fluctuations or economic instability cause the value of the Fund's investments to decline;
- The Fund's focus on Asian stocks to the exclusion of other regions exposes the Fund to greater market risk and potential monetary losses than if the Fund's assets were diversified among other regions; or
- The Fund declines in value due to its non-diversified geographical status which exposes it to greater loss; or

Risks associated with the Stock Connect Scheme

Stock Connect Securities

There can be no assurance that an active trading market for such Stock Connect securities will develop or be maintained. If spreads on Stock Connect securities are wide, this may adversely affect the Fund's ability to dispose of such securities at the desired price. If the Fund needs to sell Stock Connect securities at a time when no active market for them exists, the price it receives for its Stock Connect securities - assuming it is able to sell them - is likely to be lower than the price received if an active market did exist, and thus the performance of the Fund may be adversely affected depending on the Fund's size of investment in securities through the

Stock Connect.

Quota Limitations

The Stock Connect scheme (“Connect Scheme”) is subject to quota limitations which may restrict the Company’s ability to invest in China A-Shares through the programme on a timely basis and as a result, the Fund’s ability to access the China A-Shares market (and hence to pursue its investment strategy) may be adversely affected.

Trading under the Connect Scheme will be subject to the Daily Quota. The Daily Quota may change and consequently affect the number of permitted buy trades on the relevant Northbound Trading Link. The Fund does not have exclusive use of the Daily Quota and such quotas are utilised on a “first come – first served” basis. Therefore, quota limitations may restrict the Fund’s ability to invest in or dispose of China Connect Securities through the Connect Scheme on a timely basis.

Clearing and Settlement Risk

The HKSCC and ChinaClear have established the clearing links and each becomes a participant of each other to facilitate clearing and settlement of cross-border trades. For cross-border trades initiated in a market, the clearing house of that market will on one hand clear and settle with its own clearing participants, and on the other hand undertake to fulfil the clearing and settlement obligations of its clearing participants with the counterparty clearing house.

The Fund’s rights and interests in China Connect Securities will be exercised through HKSCC exercising its rights as the nominee holder of China Connect Securities credited to HKSCC’s omnibus account with ChinaClear. The relevant measures and rules in relation to the Stock Connect Scheme generally provide for the concept of a “nominee holder” and recognise the investors including the Fund as the “beneficial owners” of the Stock Connect securities.

However, the precise nature and rights of an investor as the beneficial owner of China Connect Securities through HKSCC as nominee is less well defined under PRC law. There is lack of a clear definition of, and distinction between, “legal ownership” and “beneficial ownership” under PRC law. Therefore, the Fund’s assets held by HKSCC as nominee (via any relevant brokers’ or custodians’ accounts in CCASS) may not be as well protected as they would be if it were possible for them to be registered and held solely in the name of the Fund.

In connection to this, in the event of a default, insolvency or bankruptcy of a custodian or broker, the Fund may be delayed or prevented from recovering its assets from the custodian or broker, or its estate, and may have only a general unsecured claim against the custodian or broker for those assets.

In the remote event of any settlement default by HKSCC, and a failure by HKSCC to designate securities or sufficient securities in an amount equal to the default such that there is a shortfall of securities to settle any securities trades, ChinaClear may deduct the amount of that shortfall from HKSCC’s omnibus account with ChinaClear, such that the Fund may share in any such

shortfall.

As previously discussed, HKSCC is the nominee holder of the securities acquired by investors via Stock Connect. As a result, in the remote event of a bankruptcy or liquidation of HKSCC, the Stock Connect securities may not be regarded as the general assets of HKSCC under the laws of Hong Kong, and will not be available to the general creditors of HKSCC on its insolvency. In addition, as a Hong Kong incorporated company, any insolvency or bankruptcy proceedings against HKSCC will be initiated in Hong Kong and be subject to Hong Kong law. In such circumstances, ChinaClear and the courts of mainland China will regard the liquidator of HKSCC appointed under Hong Kong law as the entity with the power to deal with the relevant securities in place of HKSCC.

Trading in Derivatives and Efficient Portfolio Management Techniques

The prices of derivative instruments, including futures and options prices, may be highly volatile. Price movements of forward contracts, futures contracts and other derivative contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programmes and policies of governments, and national and international political and economic events and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly markets in currencies and interest rate related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction. The use of techniques and instruments also involves certain special risks, including (1) dependence on the ability to predict movements in the prices of securities being hedged and movements in interest rates, (2) imperfect correlation between the hedging instruments and the securities or market sectors being hedged, (3) the fact that skills needed to use these instruments are different from those needed to select the Fund's securities and (4) the possible absence of a liquid market for any particular instrument at any particular time, and (5) possible impediments to efficient portfolio management or the ability to meet redemptions.

The Fund will be exposed to a credit risk on parties with whom it trades and may also bear the risk of settlement default.

The Fund may be exposed to legal risk, particularly in the context of OTC derivatives. Legal risk is the risk of loss due to the unexpected application of a law or regulation, or because contracts are not legally enforceable or documented correctly.

Conflicts of interest may arise as a result of the Fund's trading with counterparties. Such parties may obtain information regarding the Fund's activities and strategies that could be used by such third parties to the detriment of the Fund.

Risks Associated with Collateral Management

Where the Fund enters into an OTC derivative contract or a securities financing transaction ("SFT"), it may be required to pass collateral to the relevant counterparty or broker. Collateral

that the Fund posts by way of a title transfer collateral arrangement to a counterparty or a broker that is not segregated with a third-party custodian may not have the benefit of customer-protected “segregation” of such assets. Therefore in the event of the insolvency of a counterparty or a broker, the Fund may become subject to the risk that it may not receive the return of its collateral or that the collateral may take some time to be returned if the collateral becomes available to the creditors of the relevant counterparty or broker. In addition, notwithstanding that the Fund may only accept non-cash collateral which is highly liquid, the Fund is subject to the risk that it will be unable to liquidate collateral provided to it to cover the costs incurred as a result of the counterparty default. The Fund is also subject to the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

Where cash collateral received by the Fund is re-invested in accordance with the conditions imposed by the Central Bank, the Fund will be exposed to the risk of a failure or default of the issuer of the relevant security in which the cash collateral has been invested.

Where collateral is posted to a counterparty or broker by way of a title transfer collateral arrangement or where the Company on behalf of the Fund grants a right of re-use under a security collateral arrangement which is subsequently exercised by the counterparty, the Company on behalf of the Fund will only have an unsecured contractual claim for the return of equivalent assets. In the event of the insolvency of a counterparty, the Fund shall rank as an unsecured creditor and may not receive equivalent assets or recover the full value of the assets. Investors should assume that the insolvency of any counterparty would result in a loss to the relevant Fund, which could be material. In addition, assets subject to a right of re-use by a counterparty may form part of a complex chain of transactions over which the Company or its delegates will not have any visibility or control.

Because the passing of collateral is effected through the use of standard contracts, the Fund may be exposed to legal risks such as the contract may not accurately reflect the intentions of the parties or the contract may not be enforceable against the counterparty in its jurisdiction of incorporation.

15. Investment Restrictions

Notwithstanding Point 3.1 of Appendix I – Investment Restrictions in the Prospectus, the Fund may not invest more than 10% of its net assets in aggregate in other collective investment schemes.

16. Efficient Portfolio Management

Any direct and indirect operational costs and/or fees which arise as a result of the use of efficient portfolio management techniques which may be deducted from the revenue delivered to the Fund shall be at normal commercial rates and shall not include any hidden revenue.

Such direct or indirect costs and fees will be paid to the relevant counterparty to the financial derivative instruments transaction. Counterparty details, where applicable, will be disclosed in the Company's audited accounts. All revenues generated through the use of efficient portfolio management techniques, net of direct and indirect operational costs and fees, will be returned to the Fund.
