4. Investment Objective

The investment objective of the Fund is to provide investors with long-term capital appreciation.

5. Investment Policy

In seeking to achieve its investment objective the Fund intends to invest at least 80% of its net assets in equity securities of globally based companies principally engaged in the production, exploration or discovery, or distribution of energy derived from fossil fuels and the research and development or production of alternative energy sources. Alternative energy includes, but is not limited to energy derived from such sources as solar or wind power, hydro-electricity, tidal flow, wave movements, geothermal heat, biomass or biofuels. The term “principally engaged” means that the company must derive at least 50% of its annual gross revenues from the activities listed above.

These equity securities include common stocks, preferred stocks, securities convertible into common stocks, rights and warrants, which are generally listed or traded on a Recognised Exchange. No more than 5% of the Net Asset Value of the Fund will be invested in warrants.

Under normal market conditions the Fund intends to invest in at least 30 stocks. The Investment Manager may invest the Fund's assets in securities of companies with a wide range of market capitalizations and in companies domiciled throughout the world, including companies domiciled in or traded on Emerging Markets.

When current market, economic, political or other conditions are unstable and would impair the pursuit of the Fund's investment objective, the Fund may temporarily invest up to 100% of its assets in cash, cash investments or high quality short-term money market instruments including, but not limited to, commercial paper and treasury bills. When the Fund takes a temporary defensive position, the Fund may not achieve its investment objective. The philosophy of the Fund is to remain invested.

The Fund may engage in transactions in financial derivative instruments for the purposes of efficient portfolio management including reduction of risk or cost (subject to the conditions and within the limits laid down by the Central Bank). Such techniques and instruments include but are not limited to futures, options, forward foreign exchange contracts, stocklending and repurchase/reverse repurchase agreements (a more detailed description of which is set out in the Prospectus under the section headed “Financial Derivative Instruments and Techniques for Efficient Portfolio Management”) subject to the conditions and limits set out in the Central Banks UCITS Regulations. The Fund will not be leveraged through the use of financial derivative instruments. The maximum exposure of the Fund in respect of stocklending and repurchase/reverse repurchase agreements shall be 30% of the Net Asset Value of the Fund. However, the Investment Manager does not anticipate that the Fund's exposure to stocklending and repurchase/reverse repurchase agreements will exceed 0%- 20% of the Net Asset Value of the Fund. The types of assets that will be subject to stocklending and repurchase/reverse repurchase agreements will be equity and equity related securities.

Class X EUR Accumulation Shares will be offered from 9.00am (Irish Time) on 25th May 2018 to 3.00pm (Irish Time) on 25th May 2018 (the “initial offer period”) at the Initial Price and subject to acceptance of applications for Shares by the Company will be issued for the first time on the first Dealing Day after expiry of the initial offer period. The initial offer period may be shortened or extended by the Directors. The Central Bank will be notified of any such shortening or extension if subscriptions for Shares have been received and otherwise on an annual basis.

All other Shares in the Fund are being issued at the Net Asset Value per relevant Share Class.

8. Application for Shares

Applications for Shares may be made through the Administrator (whose details are set out in the Application Form). Applications accepted and received by the Administrator prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any applications received after the Dealing Deadline for a particular Dealing Day will be processed on the following Dealing Day unless the Directors in their absolute discretion otherwise determine to accept one or more applications received after the Dealing Deadline for processing on that Dealing Day provided that such application(s) have been received prior to the Valuation Point for the particular Dealing Day. Applications received after the Dealing Deadline but prior to the

Valuation Point will only be accepted in exceptional circumstances as determined and agreed by the Directors, and having regard to the equitable treatment of Shareholders.

Initial applications should be made using an Application Form obtained from the Administrator but may, if the Company so determines, be made by telefax subject to prompt transmission to the Administrator of the original signed application form and such other papers (such as documentation relating to money laundering prevention checks) as may be required by the Directors or their delegate. No redemptions will be processed until the original Application Form and such other papers as may be required by the Directors have been received and all anti-money laundering procedures have been completed. Subsequent applications to purchase Shares following the initial subscription may be made to the Administrator by telefax or such other means as may be permitted by the Directors without a requirement to submit original documentation and such applications should contain such information as may be specified from time to time by the Directors or their delegate. Amendments to a Shareholder's registration details and payment instructions will only be made following receipt of original written instructions from the relevant Shareholder.

Fractions

Subscription monies representing less than the subscription price for a Share will not be returned to the investor. Fractions of Shares will be issued where any part of the subscription monies for Shares represents less than the subscription price for one Share, provided however, that fractions shall not be less than .01 of a Share.

Subscription monies, representing less than .01 of a Share will not be returned to the investor but will be retained by the Company in order to defray administration costs.

Method of Payment

Subscription payments net of all bank charges should be paid by CHAPS, SWIFT or telegraphic or electronic transfer to the bank account specified in the Application Form enclosed with this Prospectus. Other methods of payment are subject to the prior approval of the Company. No interest will be paid in respect of payments received in circumstances where the application is held over until a subsequent Dealing Day.

Currency of Payment

Subscription monies are payable in the currency of denomination of the relevant Share Class. However, subscriptions may be made in any freely convertible currency accepted by the Administrator but will be converted into the currency of denomination of the relevant Share Class at the rate of exchange available to the Administrator. The cost of conversion shall be deducted from the monies subscribed by an investor and the amount remaining will then be invested in Shares. The attention of investors is drawn to the fact that the value of Shares subscribed for in a currency other than the currency of denomination of the relevant Share Class will be subject to exchange rate risk in relation to the relevant currency of denomination.

Timing of Payment

Payment in respect of subscriptions must be received in cleared funds by the Administrator no later than 3 Business Days after the relevant Dealing Day provided that the Company reserves the right to defer the issue of Shares until receipt of cleared subscription monies by the Fund. If payment in cleared funds in respect of a subscription has not been received by the relevant time, the Manager or its delegate may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the investor interest at the 7 day London Interbank Offer Rate as fixed by the British Banking Association (LIBOR) + 1.5% for the relevant subscribed currency, which will be paid to the Manager together with an administration fee of Stg£100, or its relevant subscribed currency equivalent. The Company may waive either of such charges in whole or in part. In addition, the Manager has the right to sell all or part of the investor's holding of Shares in the Fund or any other Fund of the Company in order to meet such charges.

Confirmation of Ownership

Confirmation of each purchase of Shares will be sent to Shareholders within 48 hours of the purchase being made. Confirmation will normally be dispatched by email or facsimile where the relevant and proper contact details have been provided to the Administrator, or alternatively by post at the discretion of the Administrator. Title to Shares will be evidenced by the entering of the investor's name on the Company's register of Shareholders and no certificates will be issued.

9. Redemption of Shares

Requests for the redemption of Shares should be made to the Administrator whose details are set out in the Application Form on behalf of the Company by way of a signed application form or facsimile or written communication or such other means as may be permitted by the Directors and should include such information as may be specified from time to time by the Directors or their delegate. Requests for redemption received prior to the Dealing Deadline for any Dealing Day will be processed on that Dealing Day. Any requests for redemption received after the Dealing Deadline for a Dealing Day will be processed on the next Dealing Day unless the Company in its absolute discretion determines otherwise. Redemption requests received after the Dealing Deadline but prior to the Valuation Point will only be accepted in exceptional circumstances as determined and agreed by the Directors, and having regard to the equitable treatment of Shareholders. Redemption requests will only be accepted for processing where cleared funds and completed documents including documentation relating to money laundering prevention checks are in place from original subscriptions. No redemption payment will be made from an investor holding until the original subscription application form, and all documentation required by or on behalf of the Company (including any documents in connection with anti-money laundering procedures) has been received from the investor and the anti-money laundering procedures have been completed.

The redemption price per Share shall be the Net Asset Value per Share. However, the Directors are empowered to charge a redemption fee, details of which are set out at Section

“11. Fees and Expenses”, sub-heading “Redemption Fee”. In the event of a redemption fee being charged, Shareholders should view their investment as medium to long term.

Method of Payment

Redemption payments following processing of instructions received by telefax will only be made to the bank account detailed on the Application Form or as subsequently notified to the Administrator in writing.

Currency of Payment

Shareholders will normally be repaid in the currency of denomination of the relevant Share Class. If, however, a Shareholder requests to be repaid in any other freely convertible currency, the necessary foreign exchange transaction may be arranged by the Administrator (at its discretion) on behalf of the Shareholder and the cost of conversion shall be deducted from the redemption proceeds payable to the Shareholder.

Timing of Payment

Redemption proceeds in respect of Shares will be paid within 5 Business Days of the Dealing Deadline for the relevant Dealing Day provided that all the required documentation has been furnished to and received by the Administrator.

Withdrawal of Redemption Requests

Requests for redemption may not be withdrawn save with the written consent of the Company or its authorised agent or in the event of suspension of calculation of the Net Asset Value of the Fund.

Compulsory/Total Redemption

Shares of the Fund may be compulsorily redeemed and all the Shares may be redeemed in the circumstances described in the Prospectus under the sub-headings “Compulsory Redemption of Shares” and “Total Redemption of Shares”.

10. Conversion of Shares

Subject to the Minimum Subscription requirements of the relevant Fund or Classes, Shareholders may request conversion of some or all of their Shares in one Fund or Class to Shares in another Fund or Class or another Class in the same Fund in accordance with the procedures specified in the Prospectus under the heading “Conversion of Shares”.

11. Fees and Expenses

The Investment Manager shall be responsible for paying the administrative expenses of the Fund, to include establishment costs, fees and expenses payable to the Manager, the Depositary, the Administrator, including transfer agency transaction fees, all fees for investment research (subject to a maximum charge of 0.10% of the Net Asset Value of the Fund), Directors fees, any Paying Agent appointed by or on behalf of the Company, and general administrative expenses, which include but are not limited to legal and other professional advisory fees, company secretarial fees, Companies Registration Office filings and statutory fees, regulatory fees, auditing fees, translation and accounting expenses, taxes and governmental expenses applicable to the Fund, costs of preparation, translation, printing and distribution of reports and notices, all marketing material and advertisements and periodic update of the Prospectus, stock exchange listing fees, all expenses in connection with registration, listing and distribution of the Fund and Shares issued or to be issued, all expenses in connection with obtaining and maintaining a credit rating for the Fund or Classes or Shares, expenses of Shareholders meetings, Directors' insurance premia, expenses of the publication and distribution of the Net Asset Value, clerical costs of issue or redemption of Shares, postage, telephone, facsimile and telex expenses and any other expenses in each case together with any applicable value added tax.

Investment Manager's Fee

The Manager will pay to the Investment Manager out of the assets of the Fund the fees as detailed below subject to a maximum fee of 2%.

The investment management fee is payable to the Investment Manager subject to the proviso that, when taken together with the administration fee payable to the Investment Manager (as detailed above) the combined investment management and administration fee shall not exceed 2% of the Net Asset Value of the relevant Class.

- Class B – 1.5% of the Net Asset Value of the Class B Shares

The fees of any sub-distributor appointed by the Global Distributor will be paid out of the portion of the fees payable to it for the distribution of Shares of the Fund.

Redemption Fee

A redemption fee not exceeding 2% of the Net Asset Value of Shares being redeemed within 30 days of subscription may be imposed on the redemption of Shares which shall be retained by the Company for its sole use and benefit or as it may determine. The Directors may differentiate between Shareholders of the Fund by waiving or reducing the redemption fee chargeable to certain Shareholders.

Shareholders who redeem after the 30 day period will not be charged a redemption fee.

12. Dividends and Distributions

The Company may in general meeting declare dividends but no dividend shall exceed the amount recommended by the Directors. Dividends, if declared, will be paid annually within four months of declaration. It is intended that the Fund will pursue a distribution policy so that the Funds will be able to obtain certification as a “Reporting Fund” under the United Kingdom Offshore Funds (Tax) Regulations 2009 for the purpose of United Kingdom taxation. A failure of the Fund to comply with this requirement will result in the Fund failing to obtain such certification.

Dividends may be paid out of the net investment income. Otherwise all income and gains of the Fund will be accumulated within the Fund. Dividends which are not claimed or collected within six years of payment shall revert to and form part of the assets of the Fund. Dividends will be paid by cheque or bank transfer at the expense of Shareholders. Shareholders may elect to reinvest dividends in additional Shares in the Fund by ticking the appropriate box on the Application Form.

Where the amount of any distribution payable to an individual Shareholder would be less than US\$100 the Directors in their sole discretion may determine that such amount shall not be distributed but shall be retained and reinvested within and for the benefit of the Fund.

Equalisation

The Fund operates equalisation in relation to Class X USD Distribution Shares (“Distribution Shares”). A Shareholder who has purchased Distribution Shares during a Distribution Period will receive a distribution made up of two amounts:

- income which has accrued from the date of purchase, and
- capital which represents the return of the equalisation element.

The effect is that income is distributed to Shareholders in proportion to the duration of their ownership of the Distribution Shares in the relevant Distribution Period. All Distribution Shares purchased during a Distribution Period will contain in their purchase price an amount called equalisation which represents a proportion of the income (if any) of the Fund, attributable to the Distribution Share Class, that has accrued (but has not been distributed) up to the date of issue. The amount of equalisation is averaged across all the Shareholders of the Distribution Share Class and is refunded to them as part of the first distribution after their purchase of Distribution Shares. Such returned equalisation may be treated as a return of capital for tax purposes depending on the tax rules in the country where a Shareholder pays tax. Shareholders of Distribution Shares who redeem their Shares will receive an amount which will include the income accrued to the date of redemption and which may be treated as income for tax purposes, subject to the tax rules in the country where a Shareholder pays tax.

Shareholders of Distribution Shares may elect in their application for Shares either to receive dividends in cash or to reinvest the dividend amount in further Shares. In the absence of the Shareholder making the election as above, the Fund shall reinvest the dividend payment in Shares, until otherwise directed in writing by the Shareholder. If dividends are to be paid in cash, they will normally be paid by electronic transfer at the Shareholder's risk and expense.

If a dividend is not payable, all income and gains of the Fund will be accumulated within the Fund. Dividends which are not claimed or collected within six years of payment shall revert to and form part of the assets of the Fund. Dividends will be paid by cheque or bank transfer at the expense of Shareholders. Shareholders may elect to re-invest dividends in additional Shares in the Fund by ticking the appropriate box on the Application Form.

Accumulation Shares

Income attributable to Accumulation Share Classes will not be distributed but will be accumulated within the Fund.

13. Risk Factors

The attention of investors is drawn to the “Risk Factors” section in the Section of the Prospectus entitled “The Company”).

In addition, the following risk factors are specific to an investment in the Fund.

Investment in Equity Securities

The Fund will invest in equity securities traded on Recognised Exchanges. Equity securities will be subject to risks associated with such investments, including fluctuations in market prices, adverse issuer or market information and the fact that equity securities are subordinate in the right of payment to other corporate securities, including debt securities. The value of these securities varies with the performance of the respective issuers and movements in the equity markets generally. As a result, the Fund may suffer losses if it invests in equity securities of issuers where performance falls below market expectations or if equity markets in general decline or the Fund has not hedged against such a general decline.

Concentration Risk

The Fund invests in a narrow sector of the stock market and typically holds a relatively small number of stocks as compared to many other funds. This may make the Fund's performance more volatile than would be the case if it had a diversified investment portfolio.

Special Risks Associated with Energy Companies

The stocks of energy and energy related companies are especially affected by variations in the price of oil and other energy sources which, in turn, are impacted by many variables, including, but not limited to, the supply and demand for those sources. Factors influencing supply include: the actions of Organization of The Petroleum Exporting Countries (“OPEC”); war and terrorism; weather; tax regimes; and the price of oil itself, which influences the marginal return on producing energy sources. Factors influencing demand include: economic growth around the world, and the relative growth of less developed countries versus developed economies; weather; and the price of the commodity itself. Energy stocks tend to be influenced on a day-to-day basis by the futures prices for the commodities that are traded on various exchanges.

Regulatory and Environmental Risks

Energy operations are subject to various federal, state and local and foreign governmental regulations, which may be changed from time to time in response to economic or political conditions. Government regulation can include price regulation as well as limiting available services and products, ownership, and geographic territories served. Such regulation can result in limited returns, increased costs, and decreased economic incentive to develop new products. Government regulation may be unpredictable and is subject to political, economic, social and market developments. There can be no assurance as to the level or effect on companies in the energy and oil and gas sector of government regulation in the future.

Emerging Markets Risk

The Fund may invest in equity securities of companies in emerging markets. Such securities may involve a high degree of risk and may be considered speculative. Risks include (i) greater risk of expropriation, confiscatory taxation, nationalization, and social, political and economic stability; (ii) the small current size of the markets for securities of emerging markets issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility; (iii) certain national policies which may restrict the Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; (iv) the absence of developed legal structures governing private or foreign investment and private property; (v) the legal infrastructure and accounting, auditing and reporting standards in emerging markets may not provide the same degree of shareholder protection or information to investors as would generally apply internationally; (vi) potentially a greater risk regarding the ownership and custody of securities i.e. in certain countries, ownership is evidenced by entries in the books of a company or its registrar. In such instances, no certificates representing ownership of companies will be held by the Depositary or any of its local correspondents or in an effective central depository system; and (vii) emerging markets may experience significant adverse economic developments, including substantial depreciation in currency exchange rates or unstable currency fluctuations, increased interest rates, or reduced economic growth rates than investments in securities of issuers based in developed countries.

Re-Investment of Cash Collateral

Where cash collateral is re-invested, in accordance with the conditions imposed by the Central Bank, a Sub-Fund will be exposed to the risk of a failure or default of the issuer of the relevant security in which the cash collateral has been invested.

14. Investment Restrictions

Notwithstanding Point 3.1 of Appendix I – Investment Restrictions in the Prospectus, the Fund may not invest more than 10% of its net assets in aggregate in other collective investment schemes.
